PROFESSIONAL SUMMARY

I'm a front Developer with a lot of experience, I thrive in high-pressure environments, proving adept in project implementation skills. My patience complements my ability to work with timelines. I am committed to continuous learning, consistently seeking opportunities to enhance both my practical and intellectual abilities. User-focused Front End Developer with an eye for design and a deep understanding of usability goals. Perfectly marries functional requirements and creative elements to produce optimal interfaces. Skilled at managing time, projects, and resources to accomplish development goals.

TRANING AND EXPERIENCE

- **Frontend Web Developer React js**

Innovatek- Full-time April 2024 - Present

Dubai, United Arab Emirates - Remote

- ***Project:**

We are developing a kiosk-based donation system to streamline and simplify public donations for various charities and institutions

- ***Key Features:**

- Designed and implemented a user-friendly dashboard (Back Office) that allows administrators to control and customize the content displayed on kiosk devices.
- I developed a versatile design tool within the Back Office, enabling administrators to customize kiosk interfaces easily.
- Built reusable asset components for media uploads and selection, enhancing the system's modularity and efficiency.
- I contributed to developing key features such as interactive charts, data tables, and advanced filtering options.
- Ensured responsive design and optimal user experience across various devices for multiple components within the dashboard.

- ***Responsibilities:**

- Implemented high-quality, reusable code with a focus on performance and maintainability.
- Collaborated with the team to propose and execute solutions to challenges encountered during development.
- Maintained a high level of commitment to project deadlines and quality standards.
- Suggested and implemented improvements to enhance the overall system functionality and user experience.

- ***Achievements:**

- Played a pivotal role in creating a system that has garnered interest from numerous prominent charities and institutions in the UAE.
- Successfully contributed to the project's goal of making public donations more accessible and efficient through innovative technology solutions.

WORK AND PROJECTS:

TASK MANAGER-DASHBOARD

REPO: <https://github.com/Mohamed-Mubarak-142000/task-manger.git>

- Through this project, you can manage the task work for the team by creating a task, specifying the people from the team to perform this task, and following up on the task work through activities online, whatever the stage of the task in progress - completed-bug-started. The admin can also add a sub task to a specific task or to a specific person and send it assets for tasks. The admin can create a new user, delete it, and modify it, as well as for added tasks and other features. In the end, you can view this site on any screen.

COURSES-ONLINE-APP
